How to Replace the Pencil Nib

Compatibility

Supports iPad models from 2018 onwards with iPadOS 12.2 or later.

Note: The box includes 3 extra 1.5 mm nibs and 1 extra charging port cap for replacement.

Features & Benefits

Palm Rejection

Write and draw comfortably while resting your hand on the screen.

Magnetic Attachment

Easily attaches to compatible iPads for storage and quick access.

Auto Power-Saving Mode

Automatically shuts off after 30 minutes of inactivity, extending battery life.

Long Standby Time

Up to 90 days standby ensures it's ready when you are.

Double-Tap Power Control

Quickly turn the pencil ON/OFF with a simple touch — no buttons needed.

Tilt Sensitivity

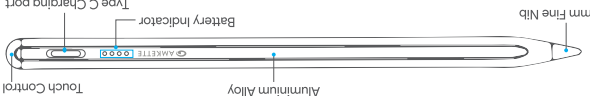

Very stroke thickness for natural sketching and shading.

Whats In The Box

Know your Pencil

How to Use

- 1 **Power On/Off:** Double-tap the touch switch on the back of the pencil to turn it ON or OFF. The LED lights will glow briefly to indicate the stylus is ready to use.
- 2 **Start Writing:** Place the tip on your iPad to start writing. No Bluetooth pairing is required.
- 3 **Charging:** Connect the USB Type-C cable to the charging port. The LEDs will indicate the charging progress.

- 4 LEDs = 100% – 75%
3 LEDs = 75% – 50%
2 LEDs = 50% – 25%
1 LED = 25% – 0%
- When battery drops below 10%, the last LED blinks, and each LED represents 25% charge.
- Connect the USB-C cable to the pencil and power source; the LED indicates charging progress until full.
