RECONNECTING: SIMPLY PRESS (A) + DOJO BUTTON TO RECONNECT THE GAMEPAD

ACCURACY MODE

ENABLE ACCURACY MODE

Enable Accuracy Mode

- Neon RGB flashes 2 Times - Enabled
- Green RGB flashes 2 Times - Disabled

Right Joystick
Hold Precision Button + R1

Left Joystick
Hold Precision Button + L1

Disable Accuracy Mode

Press the same combination again to Deactivate.

TIPS: ACCURACY MODE LOCKS JOYSTICK MOVEMENT TO PRECISE X / Y AXES FOR STRAIGHTER, MORE CONTROLLED INPUT— PERFECT FOR AIMING, STEERING, OR LINE DIRECTIONAL MOVEMENT. GREAT FOR FPS PRECISION AIMING, RACING LINE ADJUSTMENTS, OR FIGHTING GAMES WHERE STRAIGHT-LINE ACCURACY MAKES ALL THE DIFFERENCE.

WINDOWS PC MODE

- Long press **DOJO** button for 3 sec.
- Open Bluetooth Settings on your device.
- Scan the devices and pair with "Xbox Wireless Controller".

RECONNECTING: SIMPLY PRESS THE DOJO BUTTON TO POWER ON AND RECONNECT THE GAMEPAD

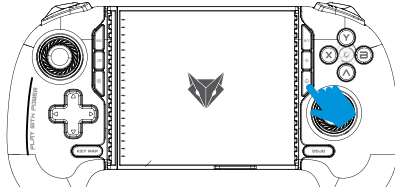

PRECISION MODE

PRECISION MODE – Adjust View Sensitivity

Enable / Disable Precision Mode

Press the Precision Mode Button once to Activate.

Press again to Deactivate.

Red LED Flashes 2 Times - Enabled

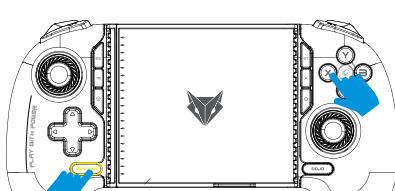

Blue LED Flashes 2 Times - Disabled

TIPS: PRECISION MODE REDUCES JOYSTICK SENSITIVITY BY 50%, PROVIDING SMOOTHER AND MORE STABLE CONTROL—IDEAL FOR ACCURATE AIMING AND FINE MOVEMENT IN FPS AND RACING GAMES.

KEY MAP MODE (Only for Android)

Set up your gamepad to play games that do not have Native Controller Support.

- 1 Long press the **KEY MAP** button for 3 sec.
- 2 Open Bluetooth Settings on your device.
- 3 Connect to “EvoFox Deck 2”.

RECONNECTING: SIMPLY PRESS THE KEY MAP BUTTON TO POWER ON AND RECONNECT THE GAMEPAD TO THE LAST PAIRED MODE

HOW TO PROGRAM YOUR CONTROLLER FOR KEY MAP MODE (Android Only)

Ready to Conquer PUBG/BGMI, Free Fire, Genshin, or Mobile Legends? Follow this Guide to program your EvoFox Deck.

PUBG/BGMI Programming Steps:

1. Download the **Keylinker App** from Google Play Store or Apple Store.
2. To pair the EvoFox Deck 2 via Bluetooth, press and hold the **Keymap Button** until Yellow LED starts blinking rapidly.
3. Go to Bluetooth Settings on your phone and connect to "EvoFox Deck 2".
4. Launch the Keylinker App, grant all required permissions, then tap on "EvoFox Deck 2" within the app to connect. Once connected, the customization interface will open automatically.
5. The Keylinker App includes preset control layouts for many popular games such as **BGMI, Free Fire, COD Mobile, Genshin Impact, FIFA Mobile** and more. You can also customize and save your own layouts for any game.
6. Launch your game while the Keylinker App is running in the background. Then go to your game's control → **Customize Layout** → **Adjust Button Mapping** according to your play style.
7. In the Keylinker App, tap the on-screen Mapping Icon  to reveal all buttons available for configuration, then drag and place them over the game's touch controls.

JOYSTICK CALIBRATION

1. **POWER OFF CONTROLLER**
2. **ENTER CALIBRATION MODE**
Hold Select + A + Dojo until Keypad and Dojo LED flashes Red/Blue alternatively.
3. **CALIBRATING**
 - Move both joysticks in full circles 2-3 times.
 - Press Triggers and Bumper buttons 2 times.
 - Press Start button → Calibration done!
