Warranty

Amkette EvoFox Shadow X Pro Tri-Mode Wireless Gaming Mouse is backed by a 1 year performance warranty against any manufacturing defects in material or workmanship from the date of original purchase. This warranty entitles the purchaser to get the product repaired or replaced at its discretion under the following conditions:

The warranty applies to the original purchaser. Proof of original purchase is required.

The warranty does not cover the damage caused by misuse, abuse or improper storage.

In no event shall Amkette be responsible for any direct, incidental, consequential or other damages of any kind.

Please contact our Technical Support Line and/or send the defective product, postage pre-paid, together with the proof of purchase to our Customer Care Service Center to avail warranty service. Return charges will be paid by us.

Connection Guide

NOTE: Before proceeding with the connection process, please ensure that the mouse is charged using the provided Type-C cable.

🔵 Connecting via Bluetooth

SWITCHING	PAIRING	CONNECTING
Blinks Slowly	Blinks Fast	ShadowX Pro — Search and Connect on your device
Press	Long Press	

🔌 Connecting via USB 2.4GHz

NOTE: In case you have to re-pair the dongle to the mouse, long press the Mode Switch button and then connect the receiver to the device.

-3-

🔌 Connecting via Cable

SWITCHING
ON ≡
OFF
ON ⚡
Slide to OFF

Note: When the mouse is connected via a USB cable, it automatically defaults to wired mode and disables all wireless connections (Bluetooth/2.4GHz). A solid red light indicates that the wired mode is active.

Installation of the Software

Download the Application by visiting
https://www.amkette.com/qr/shadow-x-pro-wireless-help

The Software lets you customise all Buttons, create complex macros, and visually control backlighting

Power Saving Modes

High-performance gaming mice consume a lot of battery. Turning off the RGB light can provide you with a few extra hours of usage.

In Bluetooth Mode, you can check the battery percentage in the Bluetooth settings of your connected device.

RGB Switch ON/OFF: Toggle the RGB lighting ON and OFF using the RGB Switch.

Sleep Mode: When the mouse is not in use the RGB Lights will turn OFF after 1 minute.

Deep Sleep Mode: After 10 minutes of inactivity, the mouse enters an idle state and wakes up with a movement.

Low Battery: The RGB lighting turns off automatically when the battery level falls below 20%.
