WARRANTY STATEMENT

Amkette EvoFox Ronin TKL Wireless Gaming Mechanical Keyboard is backed by a 1 year performance warranty against any manufacturing defects in material or workmanship from the date of original purchase. This warranty entitles the purchaser to get the product repair or replaced under the following conditions:

The warranty applies to the original purchaser. Proof of original purchase is required.

The warranty does not cover the damage caused by misuse, abuse or improper storage.

In no event shall Amkette be responsible for any direct, incidental, consequential or other damages of any kind.

Please contact our Technical Support Line and/or send the defective product, postage pre-paid, together with the proof of purchase to our Customer Care Service Center to avail warranty service. Return postage will be paid by us.

HOW TO SWAP KEYS + SWITCHES

STEP-1

Use the Key Cap Puller to gently remove the desired Key Cap.

STEP-2

Remove the existing Switch using the Switch Puller. Ensure to orient the Switch Puller so as to engage the clips on the Switch.

STEP-3

Place the Replacement Switch in the same orientation as the removed Switch, ensuring that the Legs are not being bent. Press down firmly.

STEP-4

Place the removed Key Cap back on to the replaced Switch and press down firmly.

GASKET MOUNTING AND MORE

The Ronin TKL Wired Keyboard boasts more than 10 Layers to deliver a Keyboard experience unlike many others.

- **Bottom Plate** - Sturdy base with dual steps for stability and flexibility.
- **Sound Dampening Foam** - Reduces keystroke noise.
- **Gasket Silicon** - Suspends keys for smooth and soft typing experience.
- **PCBA** - Central circuit board for connectivity.
- **HotSwap Module** - ProMod HotSwap Modules for Ultimate DIYers.
- **Vibration Dampening Foam** - Minimises desk vibrations.
- **Light Diffusion Reflective Layer** - Enhances RGB lighting effects.
- **Switch Mounting Plate** - Holds switches securely in place.
- **HotSwappable Switches** - Customise switches effortlessly.
- **Top Plate** - Durable top layer for longevity.

BENEFITS OF GASKET MOUNTING

Experience unparalleled typing comfort and precision with Ronin's Gasket Mounting Tech. The innovative design suspends keys using gasket silicon points, ensuring smooth key presses and reducing noise. This unique construction delivers exceptional stability, enhanced tactile feedback, and an immersive typing experience like no other. Say goodbye to fatigue and hello to productivity with the Ronin Gasket Mounted mechanical keyboards.

CONNECTING VIA USB 2.4 GHZ

Take out the 2.4 GHz receiver and connect it to the device. Press [Fn] + 4 to switch to the USB mode.

Note: If the USB receiver is not recognized, long press Fn + 4 until the LED blinks fast.

CONNECTING VIA TYPE-C CABLE

Attach the Type-C cable to the device. Press [Fn] + 5 to switch to the Wired connection.

Note: You can use your own Type C-C cable if needed.

SWITCHING BETWEEN DEVICES

To switch between devices, press the [Fn] key + 1, 2, or 3 for Bluetooth, 4 for USB, or 5 for a wired connection.
