

LED STATUS AND PROTECTION FEATURES

STANDBY: When the Charger first turns ON, the light will turn blue, flash 3 times, and then turn OFF.

CHARGING: While charging a Qi Compatible Device, the **LED indicator is blue.**

FULLY CHARGED: Once the Device is Fully charged, the **LED will turn OFF.**

FOREIGN OBJECT: The Air 300 comes with Foreign Object Detection. In case a non-Qi compliant phone, metal object, or magnet is placed, the **Charger will flash Red** until the object is removed.

Over-voltage protection, over-current protection, over-temperature protection and short circuit protection are always ON.

TROUBLESHOOTING

- Check if the power outlet and adapter are working.
- Check the adapter (must be 5V/2A or QC2.0/QC3.0).
- Check the charging cable.
- Unplug and plug the charging cable.
- Check if the phone is Qi wireless charging standard.
- Remove the phone case and try again.

WARRANTY STATEMENT

Amkette PowerPro Air 300 Fast Wireless Charger is backed by a 1 Year performance warranty against any manufacturing defects in material or workmanship from the date of original purchase. This warranty entitles the purchaser to get the product repaired / replaced under the following conditions:

- The warranty applies to the original purchaser. Proof of original purchase is required.
- The warranty does not cover the damage caused by misuse, abuse or improper storage.
- In no event shall Amkette be responsible for any direct, incidental, consequential or other damages of any kind.

Please contact our Technical Support Line and/or send the defective product, postage pre-paid, together with the proof of purchase to our Customer Care Service Center to avail warranty service. Return postage will be paid by us.

Quick Start Guide

SPECIFICATIONS

Input	DC 5V/2A; 9V/1.67A
Output	5W / 7.5W / 10W
Charging Standard	Qi Certified – Qi - ID:8232
Chipset	Nuvotek CNP-5-V1.1
Charging Coils	1
Charging Distance	<=3-6mm
Charging Efficiency	<=80%
Product Material	RoHS Certified PC+ABS
Compatible Power Adapters	• For standard 5W wireless charging mode use 5V/2A power adapter. • For iPhone 7.5W fast wireless charging mode use 9V/1.67A adapter (QC 2.0/3.0). • For Samsung 10W fast wireless charging mode use 9V/1.67A adapter (QC 2.0/3.0). • Fast wireless charging requires QC2.0/3.0 adapter.

HOW TO USE

1- Setting up – Simply connect the wireless charger to a supported power adapter using the provided cable.

Notes:

- For Standard Wireless Charging use 5V – 2A power adapter.
- For **Fast Wireless Charging** use a QC 2.0 / 3.0 power adapter.

Power Adapter is not included. Please use your phones original power adapter.

2- Simply place your phone on the charging surface to start charging your device.

You may need to move your phone for perfect alignment of charging coil.

ATTENTION

- 1 – Remove any metal plates that might be used for Magnetic Car Mounts from the back of the phone.
- 2 – Do not put any metal objects like keys, rings, metallic phone case etc. on the charger.
- 3 – Please do not vigorously shake or drop the charger.
- 4 – Please do not dismantle or put it into fire or water.
- 5 – Please do not use it in severely high temperature, high humidity or corrosive environment, to avoid damage to the circuit.
- 6 – Please do not put a magnetic strip or chip card (Such as ID card, credit card etc.) on the charging pad to avoid damaging the card.
